FACE

Question 1-2

The following pie chart shows the expenditure of a company on various sports.

FACE

Question 1

How much does the amount spent on Cricket exceeds on Hockey, if the total amount spent on sports during the year be Rs. 1,80,00,000?

A) Rs. 9,00,000

B) Rs. 8,40,000

C) Rs. 5,000

D) Rs. 25000

FACE

Question 2

If the total amount spent on sports during the year was Rs. 2 Crore, the amount spent on Golf and Football together was:

A) Rs.1 Crore

B) Rs. 7000000

C) Rs. 2500000

D) Rs.0.5 Crore

FACE

Question 3-5

The following table provides test results of two tests of the students of a class. Refer to the table to answer the questions.

Group I: Students failed in both tests

Group II: Students passed only in test 1

Group III: Students passed only in test 2

Group IV: Students passed in both tests

Result	No. of Students			
Group	Section A	Section B	Section C	Section D
I	25	21	15	30
II	15	6	10	12
III	10	20	6	8
IV	14	12	11	20

FACE

Question 3

How many students are there in the class?

A) 235

B) 178

C) 144

D) None

FACE

Question 4

In which of the sections did the minimum students pass?

A) D

B) C

C) B

D) A

FACE

Question 5

In which of the sections did the maximum students pass?

A) D

B) C

C) B

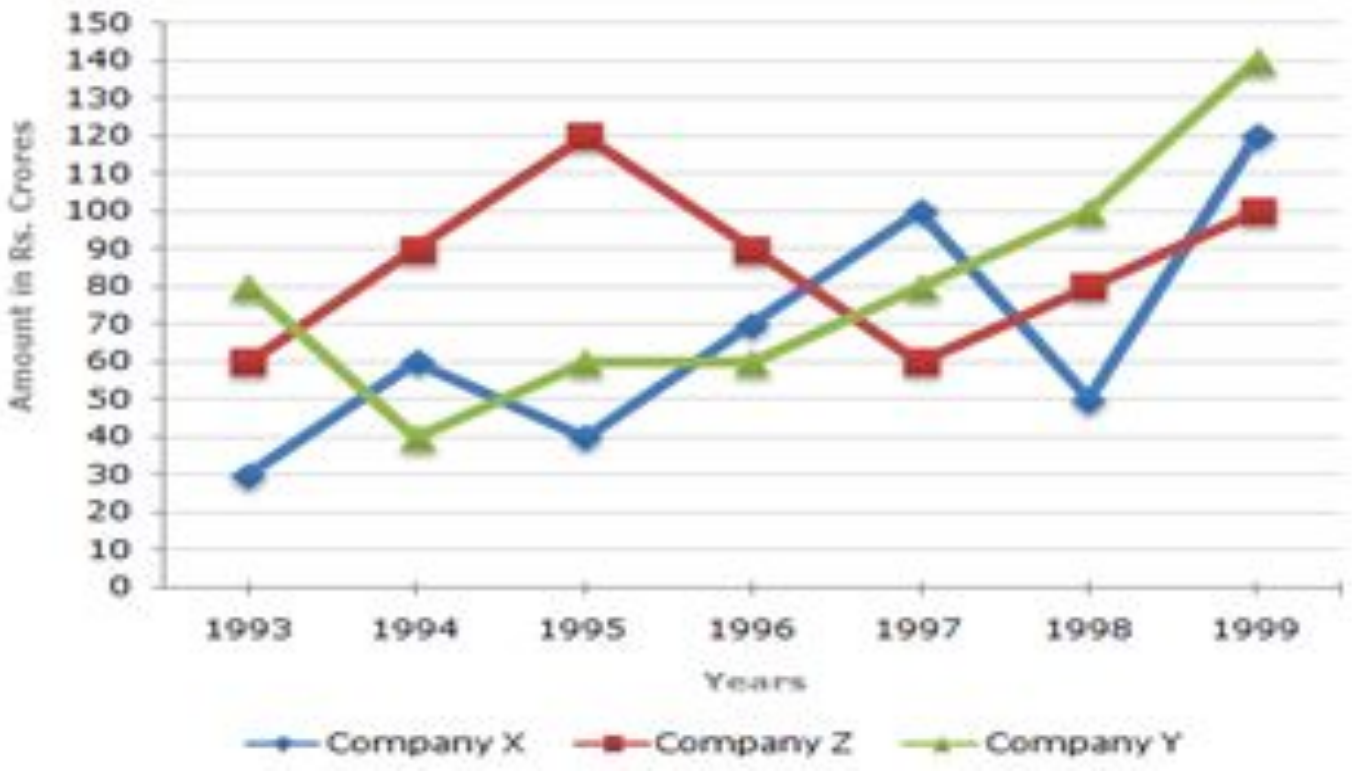

D) A

FACE

Question 6

The following chart gives the sales of 3 companies over years. Study the chart and answer the given question.

In which of the given pairs of years the total sales of the 3 companies together are equal?

FACE

Question 6

A) 1995, 1998

B) 1996, 1998

C) 1997, 1998

D) 1995, 1996

FACE

Question 7

The following pie chart shows the sources of funds collected by a company for its new project. Study the graph carefully and answer the question given below. By what percentage is the borrowed amount greater than that of the Payback amount?

FACE

Question 7

A) 314.42%

B) 225.6%

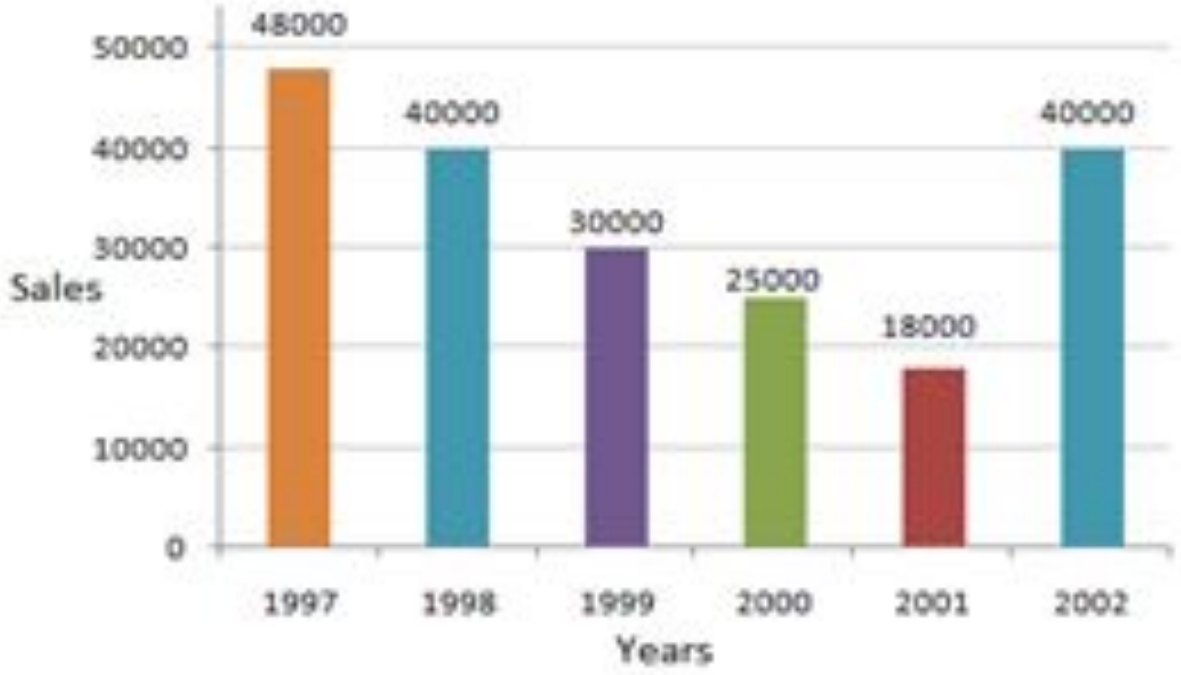

C) 336.76%

D) 399.2%

FACE

Question 8

The sales of the products of a sales company during 1997 to 2002 are shown in the following bar graph. Which are the two consecutive year between which the rate of change of sales is minimum?

FACE

Question 8

A) 1997 &1998

B) 1999 & 2000

C) Both '1997 &1998' and '1999 & 2000'

D) None

FACE

Question 9-11

Answer the questions on the basis of the information given below. A team of 5 players Arpit, Bimal, Chatur, Dinu and Elan participated in a ‘Freaket’ tournament and played four matches (1 to 4). The following table gives partial information about their individual scores and the total runs scored by the team in each match. Each column has two values missing. These are the runs scored by the two lowest scorers in that match.

None of the two missing values is more than 10% of the total runs scored in that match.

FACE

Question 9-11

		Match-1	Match-2	Match-3	Match-4
Runs scored by player	Arpit		100		53
	Bimal	88	65		52
	Chatur			110	
	Dinu	72	75	20	56
	Elan	60		78	
Total		270	300	240	200

FACE

Question 9-11

What is the maximum possible percentage contribution of Arpit in the total runs scored in the four matches?

A) 19.7%

B) 19.91%

C) 20.1%

D) 20%

FACE

Question 12

If the absolute difference between the total runs scored by Arpit and Chatur in the four matches is minimum possible then what is the absolute difference between total runs scored by Bimal and Elan in the four matches?

(a) 32
(b) 37
(c) 27
(d) Cannot be determined

FACE

Question 12

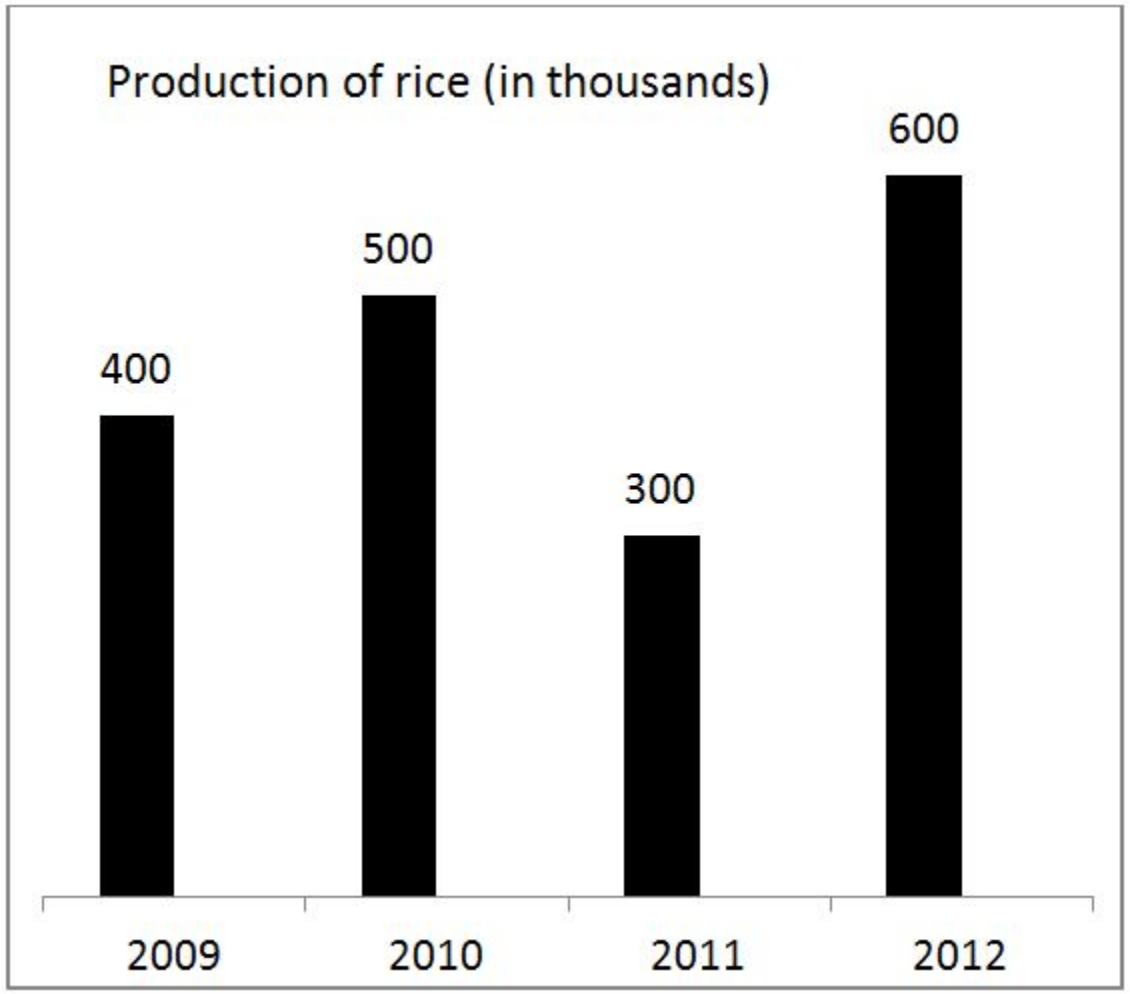

The players are ranked 1 to 5 on the basis of the total runs scored by them in the four matches, with the highest scorer getting Rank 1. If it is known that no two players scored the same number of total runs, how many players are there whose rank can be exactly determined?

(a) 0
(b) 1
(c) 3
(d) 5

FACE

Question 13-15

Answer the questions based on the graph given below.

FACE

Question 13

From the above graph, what is the percentage increase in rice production in 2012 over 2010?

A) 40%

B) 20%

C) 15%

D) 13%

FACE

Question 14

Which of the given years has shown the maximum rice production?

A) 2010

B) 2011

C) 2012

D) 2009

FACE

Question 15

What is the average of rice production in the given period?

A) 450

B) 500

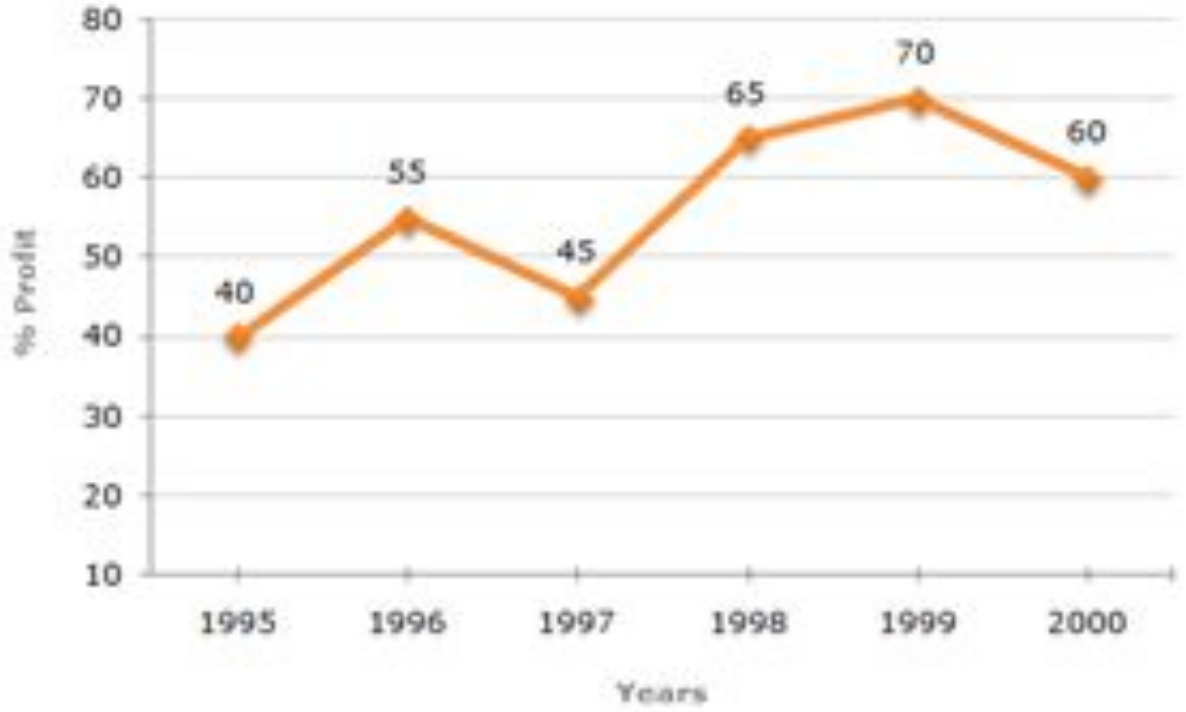

C) 1800

D) 460

FACE

Question 16

The following graph shows the annual profit percent of a company. Study the graph and answer the question given below.
In which year is the expenditure maximum?

FACE

Question 16

A) 2000

B) 1997

C) 1995

D) Cannot be determined

FACE

Question 16-20

The following tables show the batting performance of the Australian Cricket Team in a match. Table 1 indicates the score of the team at the fall of each wicket (from 1 to 10). Table 2 gives the runs scored by the 11 batsmen and the order in which they appeared in the batting line up.

Additional Information:

- At any point there are two batsmen on the field, till the fall of the 10th wicket. Whenever the team loses a wicket, the new batsman comes as per the batting order. E.g. If one of the openers gets out, the no. 3 batsman takes the field.
- A partnership between any two batsmen is the number of runs scored while both of them are batting.

FACE

Question 16-20

Fall of Wicket	Total Score
1	25
2	34
3	42
4	57
5	62
6	75
7	82
8	86
9	99
10	110

Table - 1

S. No.	Batsman	Runs Scored
1	Hayden	28
2	Gilchrist	7
3	Ponting	8
4	Symonds	4
5	Hussey	20
6	Hodge	3
7	Lee	18
8	Johnson	5
9	White	0
10	Clark	11
11	Williams	6

Table - 2

FACE

Question 16

How many batsmen lost their wicket between Hayden's and Hussey's dismissal?

A) 0

B) 1

C) 2

D) More than 2

FACE

Question 17

Who lost his wicket between Hayden's and Hussey's dismissal?

A) Gilchrist

B) Hodge

C) Ponting

D) Symonds

FACE

Question 18

How many runs were scored by the batsman who was the 9th to be dismissed?

A) 11

B) 18

C) 0

D) Cannot be determined

FACE

Question 19

What was the percentage contribution to the second highest partnership of the batsman to be dismissed first in that partnership?

A) 33.33%

B) 61.53%

C) 71.43%

D) None of these

FACE

Question 20

The Australian total comprised only ‘Singles’ and ‘Fours’. The number of Fours scored cannot exceed

A) 27

B) 24

C) 21

D) 20
