Time and Work(Work Equivalence)

FACE

Question 1

30 workers can make 24 tables in 21 days, working 8 hours a day. If 35 workers want to make 18 such tables in 12 days, how many hours should they work every day?

A) 9

B) 10

C) 7

D) 15

FACE

Question 2

12 boys and 16 girls can do a piece of work in 10 days while 13 boys and 24 girls can do the same work in 8 days. Find the time taken by 15 boys and 20 girls to do the same work.

A) 8

B) 10

C) 15

D) 4

FACE

Question 3

To complete a task, two men work on the first day, three men on the second day and so on, till it gets completed. If the same work can be completed by 9 men working for 15 days, in how many days will the work be completed in the earlier case?

A) 15

B) 16

C) 14

D) 17

FACE

Question 4

A work is completed such that on the nth day from the start, n men join the work force. If one man started the work on the first day and the work is completed in a total of 11 days, then find the number days in which 11 men working together finish the work?

A) 23

B) 11

C) 26

D) 6

FACE

Question 5

10 men can dig a 25 feet deep well in 8 days. After 2 days, a fifth of the portion dug is filled due to rain. How many more days will the same men take to dig it completely?

A) 1/5 days

B) ¼ Days

C) 2/5 days

D) 3/5 days

FACE

Question 6

4 men and 6 women complete a task in 24 days. If the women are at least half as efficient as the men, but not more efficient than the men, what is the range of the number of days for 6 women and 2 men to complete the same task?

A) 30 to 33.6 days

B) 32 to 35 days

C) 33.6 to 35 days

D) 30 to 35 days

FACE

Question 7

20 men or 24 women can complete a piece of work in 20 days. If 30 men and 12 women under-take to complete the work how much time will they take?

A) 10 days

B) 12 days

C) 15 days

D) 16 days

FACE

Question 8

A is thrice as good as B in work. A is able to finish a job in 60 days less than B. They can finish the work in - days if they work together.

A) 22 ½

B) 18

C) 26

D) 24

FACE

Question 9

Rajiv and Elango are working on an assignment. Rajiv takes 6 hours to type 40 pages on a computer, while Elango takes 5 hours to type 45 pages. How much time will they take, working together on two different computers to type an assignment of 141 pages?

A) 8 hours

B) 9 hours

C) 10 hours

D) 11 hours

FACE

Question 10

Raj and Shiva together can do a piece of work in 30 days. Raj having worked for 16 days, Shiva finishes the remaining work alone in 44 days. In how many days shall Shiva finish the whole work alone?

A) 30 days

B) 40 days

C) 60 days

D) 70 days

FACE

Question 11

A and B together can complete a work in 12 days. A alone can complete it in 20 days. If B does the work only for half a day daily, then in how many days A and B together will complete the work?

A) 10 days

B) 12 days

C) 14 days

D) 15 days

FACE

Question 12

Abhishek starts to paint a fence on one day. On the second day, two more friend of Abhishek join him. On the third day 3 more friends of him join him and so on. If the fence is completely painted this way in exactly 20 days, then find the number of days in which 10 girls painting together can paint the fence completely, given that every girl can paint twice as fast as Abhishek and his friends(Boys)?(Assume that the friends of Abhishek are all boys).

A) 20

B) 40

C) 45

D) 77

FACE

Question 13

A is 50% as efficient as B. C does half the work done by A and B together. If C alone does the work in 40 days, then A, B and C together can do the work in how many days?

A) 11 1/3 days

B) 13 1/3 days

C) 12 1/3 days

D) 15 1/3 days

FACE

Question 14

X and Y can do a piece of work in 20 days and 12 days respectively. X started the work alone and then after 4 days Y joined him till the completion of work. How long did the work last?

A) 5 days

B) 6 days

C) 7 days

D) 8 days

FACE

Question 15

A can do a certain work in the same time in which B and C together can do it. If A and B together could do it in 10 days and C alone in 50 days, then B alone could do it in how many days?

A) 15 days

B) 25 days

C) 20 days

D) 30 days
